

# MUSIC 1000 AMPLIFIER

Hybrid Technology Limited  
Unit 3, Robert Davies Court  
Nuffield Road  
Cambridge CB4 1TP  
Tel: (0223) 316910

Issue 1

## Specification

|                          |                                     |
|--------------------------|-------------------------------------|
| Output power             | 8W per channel                      |
| Speaker impedance        | 8-16R (20W min. rating recommended) |
| Frequency response       | 20Hz-20KHz +-3dB                    |
| Recommended input level  | 100mV RMS                           |
| Mix output level         | 300mv (100mV at either input)       |
| Input/output connections | Pin 2 0V                            |
|                          | Pin 3 Left signal                   |
|                          | Pin 5 Right signal                  |

## Speakers

This high-quality bookshelf speaker pair for use with the Music 1000 Amplifier has 3 drivers in each silver diecast aluminium cabinet, and is supplied complete with 6 foot cables.

|                     |                         |
|---------------------|-------------------------|
| Rating:             | 30 watts                |
| Impedance:          | 8 ohms                  |
| Frequency response: | 50 - 20k Hertz          |
| Dimensions:         | 185 x 117 x 112 mm each |
